

# EXPERTISE FOR CHANGING TIMES

## FACT: We are more than just a CPA firm

Our technology group serves publicly traded and privately held companies in the fields of software, semiconductors, web-based services, data storage devices, and networking and communication devices.

### Our technology services include:

- Integrated audits of financial statements and internal control over financial reporting (ICFR) for public companies
- Financial statement audits for privately held companies
- Accounting guidance on complex or unusual transactions
- Financial due diligence on mergers and acquisitions, and divestitures
- Federal and state corporate income tax compliance

# STRENGTH, RELIABILITY, VISION.

We are one of the leading accounting firms in California, with offices in San Francisco and the San Diego area. We have more than 70 professionals, including several experienced partners, managers, and staff formerly with Big 4 firms.

Gani Laguisma

Gani Laguisma is an assurance and advisory partner in our Technology practice working with public and private companies. He is committed to the highest standards of professionalism, combined with extensive experience and personalized service. When not working, Gani enjoys gardening, hiking, trail running, and exploring California and Pacific Northwest's national and regional parks.
